## INDEPENDENT ACCOUNTANT'S REVIEW REPORT

Board of Directors  
Sand Creek Telephone Company

We have reviewed the accompanying balance sheets of Sand Creek Telephone Company (a corporation and a wholly owned subsidiary of Sand Creek Communications Company), as of December 31, 2014 and 2013, and the related statements of income and retained earnings, and cash flows for the years then ended. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

**SAND CREEK TELEPHONE COMPANY  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

These financial statements include the financial position and results of operations of Sand Creek Telephone Company, a wholly-owned subsidiary of Sand Creek Communications Company.

The Company is located in Lenawee County, in the State of Michigan. The Company provides local exchange service and access to the toll network. The Company grants credit to customers, substantially all of whom are local residents. Additionally, the Company grants credit to interexchange carriers for access to the public switched telephone network. These trade receivables are carried at their estimated collectible amounts. Trade credit is generally extended on a short-term basis, thus trade receivables do not bear interest, although a finance charge may be applied to accounts that are more than thirty days past due. For the years ended December 31, 2014 and 2013, approximately       ; and       , respectively, of the Company's operating revenue consists of access revenue from interexchange carriers.

The Company does not always require collateral from either the customers or telecommunications providers. Accordingly, failure to collect on these accounts would result in a direct loss of the amounts uncollected. Due from Subscribers is shown net of the allowance for doubtful accounts of       and       at December 31, 2014 and 2013, respectively. The Company's estimate is based on historical collection experience and a review of the current status of accounts receivable. The Company generally does not hold financial instruments with off-balance-sheet credit risk.

The accounting records of the Company are maintained in accordance with the Uniform System of Accounts for Class A and B Telephone Companies prescribed by the Michigan Public Service Commission, which conform to accounting principles generally accepted in the United States of America.

Preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of management's estimates, primarily related to collectability of receivables, access revenue settlement amounts and depreciable lives of property, plant and equipment. Actual results could differ from those estimates.

Inventory consists of materials and supplies for additions and maintenance of the telephone plant and telephone equipment held for resale. Inventory is priced at the lower of cost or market on a first-in first-out basis.

The Company expenses advertising costs when incurred. Advertising costs expensed during 2014 and 2013 were in the amounts of       and       , respectively.

Cash and cash equivalents includes cash and short-term, highly-liquid investments with original maturities of less than three months.

The Company paid, on a cash basis, interest in the amount of       and       in 2014 and 2013, respectively. All federal and state income taxes are paid by the Company's parent corporation.

**SAND CREEK TELEPHONE COMPANY  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Company's cash accounts are subject to the Federal Deposit Insurance Corporation (FDIC) insurance limit of \$. At various times during the year the Company's cash account balances may exceed this amount in the normal course of business. Other investments are not covered by FDIC insurance. At December 31, 2014 and 2013, cash and temporary investment account balances exceeded this limit by approximately \$ and \$, respectively.

The Company provides access services to common (long distance) carriers to access the exchange of the Company. The Company receives settlements for providing interstate access service from the National Exchange Carrier Association. Intrastate access revenues are based on charges billed under the Company's Intrastate Access Revenue Tariff.

Both access revenues and local service revenues are recognized when earned, regardless of the period in which they are billed.

The Company recorded true-ups of prior years' estimated access settlements that increased income by \$ in 2014 and decreased income by \$ in 2013.

**NOTE 2 - PLANT, PROPERTY AND EQUIPMENT**

Additions to telephone plant and replacements of significant units of property are capitalized at their original cost. When telephone plant is retired, its cost is removed from the asset account and charged against the depreciation reserve together with any related salvage and removal costs. No gains or losses are recognized in connection with routine retirements of depreciable telephone property.

Depreciation is provided under the straight-line method for accounting purposes by the application of rates, based on the estimated service lives of the various classes of depreciable telephone property. Such provisions were equivalent to an annual rate of 5.6% and 4.8% of the average cost of depreciable telephone plant in service for 2014 and 2013.

**SAND CREEK TELEPHONE COMPANY  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 2 - PLANT, PROPERTY AND EQUIPMENT (Concluded)**

The balances of the major classes of plant in service as of December 31 are as follows:

	<u>2014</u>	<u>2013</u>
Land	\$	\$
General support assets		
Vehicles		
Work equipment		
Building		
Office furniture and equipment		
Computers		
Central office equipment		
Buried cable and drops		
Software		
Total	<u>                    </u>	<u>                    </u>

**NOTE 3 - COMMON STOCK**

The Company is authorized to issue 50,000 shares of stock. For both years ended December 31, 2014 and 2013, 40,739 1/3 shares were issued and outstanding. The cost method is used to account for the repurchase of outstanding shares.

**NOTE 4 - INCOME TAXES**

For income tax purposes, the Company is included in the federal consolidated and state combined tax returns with its parent, Sand Creek Communications Company. For financial reporting purposes, income taxes are computed and recorded as if the Company filed separate income tax returns, except that: (i) in the event the Company generates a net tax loss which is utilized in Sand Creek Communications Company's returns, the Company will be given the benefit of such loss, (ii) federal income taxes are calculated based upon the statutory tax rate in effect for Sand Creek Communications Company and its subsidiaries on a consolidated basis, and (iii) state income taxes are calculated based upon the tax rate in effect for Sand Creek Communications Company and its subsidiaries on a combined basis.

**SAND CREEK TELEPHONE COMPANY**  
**NOTES TO FINANCIAL STATEMENTS**

**NOTE 4 - INCOME TAXES**

Total income tax expense for the years ended December 31, 2014 and 2013 was allocated as follows:

	<u>2014</u>	<u>2013</u>
Federal income tax (benefit):		
Current - operating	\$	\$
Deferred - operating		
Current - non-operating		
Total federal income tax (benefit)		
Michigan income tax (benefit):		
Current		
Deferred		
Total Michigan income tax (benefit)		
Total corporate income tax (benefit)	<u>\$</u>	<u>\$</u>

Total federal income tax expense (benefit), divided by the sum of such tax expense (benefit) and net income (loss), results in an effective tax rate of approximately        and        for 2014 and 2013, respectively. The difference between the Company's federal effective income tax rate and the federal statutory rate is primarily a result of non-taxable income, expenses deductible for financial statement purposes that are not deductible for tax purposes, and adjustments to prior year accruals.

Deferred taxes were provided for certain temporary differences between the book basis and tax basis of assets and liabilities (principally property, plant and equipment due to depreciation differences).

Deferred income taxes presented on the balance sheet consist of the following at December 31:

	<u>2014</u>		<u>2013</u>	
	<u>Federal</u>	<u>State</u>	<u>Federal</u>	<u>State</u>
Deferred tax liabilities	<u>\$</u>	<u>\$</u>	<u>\$</u>	<u>\$</u>

Management believes that there is a greater than 50% chance (more likely than not) that the entity is entitled to the economic benefit resulting from tax positions taken in income tax returns. No interest or penalties related to uncertain tax positions has been recognized in the income statements or balance sheets for the years ended December 31, 2014 and 2013. However, federal tax returns for years 2011 through 2014 and state tax returns for years 2010 through 2014 remain subject to possible audit.

**SAND CREEK TELEPHONE COMPANY

Investments as of December 31, 2014 and 2013 consist of the following:

	<u>2014</u>	<u>2013</u>

The investment in NRTC is recorded at cost plus patronage allocations net of patronage retirements. There is not a readily determinable market price for this investment.
